

66", 72" & 78" Snowblowers

These blowers are made to suit a wide variety of horse power requirements. Ranging from 25 h.p to 50 h.p.

The close fitting fan housing with the 4 blade fan, ensures that even the wettest of snow is thrown clear of your path.

The hardened ground shafts, gears and splines along with re-enforced end plates, clevis hitch, #60 auger chain, and heavy duty auger flighting, make this one tough package. Put it to the test on your compact tractor and see the difference!
